City Council Report

Date: January 11, 2010
To: City Council
Through: Bryan Raines, Deputy City Manager
From: Edward Quedens, Business Services Director
Subject: Purchase of Replacement Air Diaphragm Pumps and Vertical Centrifugal Pumps with Appurtenances for the Water Resources Department (Contract #2009193)
"Citywide" contract

Purpose and Recommendation

Council is requested to approve the Purchase of Replacement Air Diaphragm Pumps and Vertical Centrifugal Pumps with Appurtenances as recommended. Bid pricing was obtained and evaluated by the Water Resources Department and the Purchasing Division.

The Purchasing Division recommends awarding the contract to the lowest, responsive and responsible bidder, Phoenix Pumps, Inc. at \$131,151.35, including applicable sales tax.

Background/Discussion

This purchase will provide 18 air-operated ball check diaphragm pumps and two (2) vertical centrifugal pumps for the Brown Road Water Treatment Plant. The plant currently has 24 chemical and non-chemical air diaphragm sump pumps throughout the plant, many with more than ten (10) years of service. The pumps will be used at the plant as sump pumps and replacement pumps for pumping caustic for the Emergency Chlorine Scrubber.

Nine (9) vendors were invited to bid, in addition to the standard advertising in the Arizona Republic, East Valley Tribune, Record Reporter and Bid Net. Fourteen (14) vendors downloaded the bid from the Purchasing website. Two (2) bids were received with recommended vendor being the lowest bidder meeting all provisions and specifications as set forth in the bid. The initial low bidder was deemed non-responsive for not bidding all of the items which made their total bid lower.

Alternatives

Council may choose not to award this contract and new bids will be obtained.

Fiscal Impact

The total amount of \$131,151.35 is available in the Water Resources Department's budget.
