

City Council Report

Date: March 2, 2009
To: City Council
Through: Bryan Raines, Deputy City Manager
From: Edward Quedens, Business Services Director
Subject: Purchase of a Bulk Water Delivery System for the Utilities Department, Water Division (Mesa Contract #2009103)
"Citywide" contract

Purpose and Recommendation

Council is requested to approve the Purchase of a Bulk Water Delivery System as recommended. Bid pricing was obtained and evaluated by the Utilities and Business Services Departments.

The Business Services Department recommends awarding the contract to the lowest, responsive and responsible bidder, Johlin Measurement, Ltd. at \$28,512.00, including applicable use tax.

Background/Discussion

This purchase will provide an above-ground enclosure that contains equipment and piping necessary to dispense large volumes of water for commercial and residential customers who haul their own water. This new system will replace the existing system at the Crismon Water Hauling Station.

Three responsive bids were received in January 2009.

Alternatives

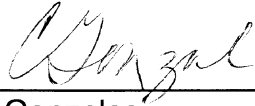

Council may choose not to authorize this purchase and new bids will be obtained.

Fiscal Impact

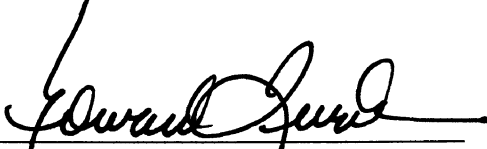

The total amount of \$28,512.00 is available in the Water Division's budget.
