As people grow older, their chances of being victims of crime decrease dramatically. But a lifetime of experience, coupled with the physical problems associated with aging, often make older Americans fearful. Though they're constantly on the lookout for physical attack and burglary, they're not as alert to frauds and con games - which are the greatest crime threats to seniors today.

Want to conquer fear and prevent crime? Take these common sense precautions.

Report To Police

- any crime or attempted crime
- any suspicious activity
- **Give Details**
-- physical description, special physical features, (scar, limp, etc.), clothing, license plate number, witnesses, etc.
- **Press Charges**
-- when the criminal is caught. The police need everyone's help to stop crime.

CRIME PREVENTION AT HOME

Keep Doors and Windows Locked.

- Install deadbolt locks.
- Choose locks which you can easily use.
- If key is lost, or if you move, have locks replaced.
- Don't attached ID tag to key ring.
- Keep all hidden entries locked (garage, basement, attic opening, etc.)
- Draw curtains and blinds at night.

Use a Peephole.

- Install one if necessary.
- Ask service people for ID before you open the door.
- **NEVER** open the door to strangers or let them know you're home alone. Remember, chain locks probably won't stop someone who's determined to get in.

Secure Home Exterior.

- Trim back shrubbery that hides doors or windows.
- Make sure porches, entrances, house numbers, and yards are well-lighted.

Protect Valuables.

- Keep money and securities in a bank.
- Have Social Security and pension checks deposited directly to your account.
- Participate in Operation Identification. Mark valuables with driver's license number. If this is your Social Security

Number, have a new license issued with a number that is not your Social Security Number. Use this number to engrave your property.

Use Telephone Sense.

- Don't give personal or financial information over the phone.
- If you have an answering machine, use it to screen out unwanted calls.
- Notify the police or phone company of threatening or harassing calls.

Consider a Pet.

- A dog, even a small one, can provide excellent protection and good company if you're willing to care for one.

Get Involved in Your Community.

- Get to know your neighbors. Organize a Neighborhood Watch.
- Learn how to recognize and report suspicious activity.
- Work together with the police department to reduce crime in your community.
