

FOR IMMEDIATE RELEASE

## **SANTÉ PARTNERS' OPENING REHABILITATION FACILITY IN MESA CREATING NEW JOBS**

*Santé of Mesa, opening in May, will create local jobs and provide transitional rehabilitation service for the residents of the Southeast Valley.*

Phoenix, AZ (Feb 15, 2011)— Santé Partners is pleased to announce that after three years of development, and a 15 million dollar investment in the City of Mesa, will open their first transitional rehabilitation center, Santé of Mesa, this May.

The new center will bring an estimated 75+ direct jobs; Scott Mickleit, VP of Santé Partners Inc. said Santé Partners is excited to be making this kind of investment and job creation in the City of Mesa.

Santé of Mesa's mission is to meet the physical, occupational and speech rehabilitation needs of patients, with the primary goal of a rapid recovery free of complications to avoid hospital readmissions while dedicated to providing quality transitional rehabilitation care.

"Our goal with the Santé concept is to get patients home as soon as possible and with strong patient outcomes," said Mark Hansen of Santé Partners.

From pre-admission to discharge, Santé of Mesa will use an integrated approach. Personal electronic health records, case management methodology, and the administration process are streamlined and connected. Streamlining will enhance quality of care, guest satisfaction, improve operational efficiencies, and increase productivity.

The primary feature focus is the state-of-the-art physical, occupational and speech rehabilitation gym, with private physical therapy cabanas, a massage room, and covered outdoor therapy area. Santé is redefining healthcare rehabilitation by not only providing rehabilitation needs but the comfort needs of the guest.

Santé of Mesa optimizes recovery with care, comfort, and support between the hospital and home. Featured amenities include: private suites, private bathrooms with showers, kitchenettes, flat screen HDTV's, Wi-Fi, and many additional features similar to an extended stay hotel.

In addition, Santé of Mesa will offer a walk-in bistro, an outdoor healing garden with a fountain, restaurant style dining available 24 hours a day, a life enrichment center with internet stations, and a full hair and nail salon.

###

#### About Santé of Mesa

Santé of Mesa TRC—located at 5358 E. Baseline Rd. Mesa, AZ 85206—offers 70 all private patient suites focused around a large state-of-the-art rehabilitation therapy gym and amenities that resemble an extended stay hotel. Santé of Mesas 'guests' receive one-on-one care and individualized treatment in a comfortable, therapeutic environment with several outdoor areas designed for patient "well being."
