

City Council Report

Date: April 20, 2009
To: City Council
Through: Bryan Raines, Deputy City Manager
From: Edward Quedens, Business Services Director
Subject: Purchase of Tire Rubber Modified Surface Sealant (TRMSS) as requested by the Transportation Department, Field Operations (City of Glendale Contract #05-09) "Citywide" contract

Purpose and Recommendation

Council is requested to approve the Purchase of Tire Rubber Modified Surface Sealant as recommended. Contract pricing was evaluated by the Transportation and Business Services Departments.

The Business Services Department recommends authorizing purchase from the City of Glendale contract with Musgrove Enterprises LLC dba SealMaster AZ at \$311,362.50 annually, based on estimated requirements, including applicable sales tax.

Background/Discussion

This purchase will provide sealcoat materials utilized by Field Operations staff to maintain City streets. This sealant combines recycled tire rubber and asphalt cements to provide a high performance sealcoat, preserving the existing asphalt material on streets while preventing damage caused by sun, oxidation, and water. Mesa has purchased TRMSS utilizing the City of Glendale contract for the past four years. Benefits to the City from use of TRMSS include: extended service life of City streets, reduced dry time, quicker set-up and installation, and elimination of the need to exchange the different chemicals in equipment between arterial and residential projects.

This is the final renewal period for Glendale's contract. The price has been reduced by 17.9% for the renewal period.

Alternatives

Council may choose not to authorize purchase from the City of Glendale contract and new bids will be obtained.

Fiscal Impact

The total amount of \$311,362.50 is available in the Transportation Department's budget.
