

HOW TO READ YOUR WATER METER

MESAAZ.GOV/WATER

LIFT METER BOX COVER

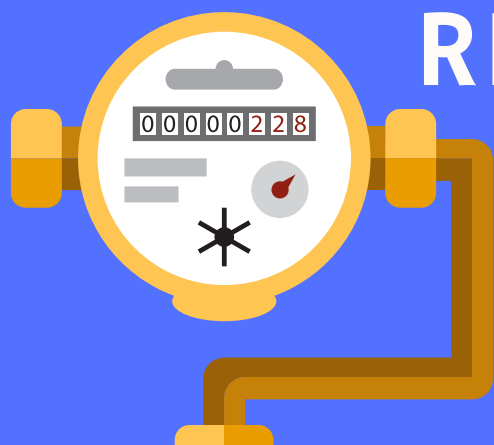

Lift the meter box cover using a flat-head screwdriver. Be careful, the lid can be heavy.

CHECK FOR CRITTERS

Use the screwdriver to check inside the meter box for bugs and other critters.

READ LEFT TO RIGHT

Read the meter register from left to right. It looks like the odometer on your car.

CHECK FOR LEAKS

Make sure you aren't using any water. Check the leak indicator arrow on your meter. If the arrow is spinning, you may have a leak.

REPLACE COVER

Use the screwdriver to replace the cover on the water meter box. Watch your fingers!

REPAIR LEAKS

The little things make a difference - Repair any drippy faucets, running toilets, broken sprinkler heads or other leaks.
