

City of Mesa Interactive Voice Response (IVR) Code List for UTL Inspections

The City of Mesa Interactive Voice Response (IVR) Code List is used for scheduling and managing inspections through the City's IVR and DIMES systems. Each IVR number corresponds to a specific type of inspection or activity, ensuring efficient processing and tracking of pre-construction meetings and inspections.

For example, to request a trench, bore, or micro-trench inspection, use IVR code 930.

IVR Number	Name
901	Pre-construction Meeting
905	Pavement Inspection
910	Pothole Inspection
915	Pavement Age Inspection
920	Steel Plate Inspection
925	Equipment Location Inspection
930	Trench/Bore/Micro trench Alignment Inspection
935	Direction Drilling Inspection
940	Concrete Inspection
945	Restoration Inspection
950	Punch List Walk Inspection
955	Final Inspection
960	City Owned Conduit Inspection
965	Utility Coordination
