

Gang Presentation for Multi-Housing

**MESA POLICE DEPARTMENT
CRIME FREE PROGRAM**

What is a gang?

- Gangs cross all ethnic, racial, socioeconomic, gender, and geographic boundaries. They bring fear and violence to neighborhoods, traffic in drugs, destroy property, involve youth in crime, and drive out businesses. Gangs pull teens away from school and home into a life of violence.
- Gangs usually claim a particular area of town which they call their “turf.” They spend much of their time fighting rival gangs to keep them out of this territory.
- Most gang members are males ranging in age from 14 to 22 years old.
- Females, especially Asian and Hispanic, are moving away from the traditional role of being merely girlfriends of gang members and are forming their own gangs.

In the late 1960s, from the playground of Fremont High School the first signs of the Crips emerged - led by South L.A. teenager, Raymond Washington; generally credited as the Crips' founding member.

In response, a number of rival gangs formed an alliance, calling themselves Bloods - a moniker adopted by African-American soldiers serving in Vietnam.

Gang Hand Signs

- Gang members use hand signs as a means of displaying their gang membership.
- Gang hand signs are also used as a means of intimidation by invoking the backing of their gang.

Gang Hand Signs

There are a variety of hand signs used by gangs and there is a great deal of information available on the Internet

Tattoos

- Tattoos, just like hand signs are used as a means of identifying their gang membership.
- Tattoos are also used as a means of intimidation.

Tattoos are often obtained by younger gang affiliates when first joining a gang. Ages of these subjects are usually 14 and 15 years old!

Hidden Tattoos

“SUR 13”

- Gang members often try to hide tattoos in areas covered by clothing or hair in order to obtain jobs, rent apartments or to just fit in, but once the clothing is removed or the head is shaved exposing the tattoos; a different story is told.

Black Light Tattoos

- Black Light tattoos are the latest fad in body art, although it has not been taken up with the criminal element as of yet.
- Most gang members are proud of their gang association, and want to advertise their loyalty appropriately. However, as the criminal element tries more and more to blend in with the normal inmate population we will probably see more and more of these types of tattoos.
- The application of a black light tattoo typically takes longer because the tattoo must be checked frequently under a black light during its application process. Also, the inks tend to be thinner and harder to work with.
- With this type of tattoo, you can usually see the scarring associated with the original application of the tattoo for several months after it has been applied, however, after 6 to 12 months the tattoo will be completely invisible to the naked eye. The ink is expected to last about 3-5 years.

Ultra Violet Tattoo

2 Days

7 Days

Under UV Light

In September 2006, the Latino Gang Investigators' Association indicated that some **Latin King** gang members have had black light tattoos placed on their bodies so that law enforcement will not be able to easily identify them.

What can I do?
